*All loans subject to credit approval. | Terms, conditions and membership requirements apply.

Census Participation in 2020

You may already know that 2020 is a census year, but did you know participating in the U.S. census supports your community? Census results help determine how billions of dollars in federal funding flow into states and communities each year AND how many seats in Congress each state gets.

Once a decade, America comes together to count every resident in the United States, creating national awareness of the importance of the census and its valuable statistics. The decennial census was first taken in 1790, as mandated by the Constitution. It counts our population and households, providing the basis for reapportioning congressional seats, redistricting and distributing more than \$675 billion in federal funds annually to support states, counties and communities' vital programs — impacting housing, education, transportation, employment, health care and public policy.

Ultimately, the success of the census depends on everyone's participation. So your participation is critical to our community! For more information on the U.S. 2020 census, you can visit www.census.gov.

Share, spend and save at your credit union

April is National Credit Union Youth Month™ and to celebrate, we want to help teach your kids the magic of money! By understanding how to responsibly share, spend and save, our youth can build magical money habits that last a lifetime.

This month is the perfect time to start teaching kids to save for their future and help them find joy in setting aside a little money for everyday spending and helping others. Open your child's first savings account at the credit union this month and help them understand money magic!
